Recommended Tube Length in mm

		Tube Diameter in mm		
		35	40	50
ml	min	80	85	100
	50	90	85	
60	105	95		
70	115	105		
80	125	110		
90	135	120		
100	145	125	105	
120	165	145	110	
125	170	150	115	
150		165	130	
175			145	
200			155	
250			180	
ml	max	185	185	185
	inch	1 3/8"	1 1/2"	2"

Approximate Tube Diameter in Inches

Plastic TUBES

Design for the Best

Green Policy Innovation

Plastic TUBES promotes Green Industry
TUBES is certified for ISO 14001:2004 - "Environmental Management"
TUBES is focused on Sustainability and proudly offers:

- **SUGARCANE** Bio-Plastic PE Tubes as an alternative to fossil-fuel based PE.
- Reduced raw material usage in caps and sleeves
- UV cured and water based coatings reducing emission of Volatile Organic Compounds (VOC)
- Reducing the need of Secondary Packaging by offering usage of Tamper Evident directly on the tube.
- High resolution pictures printed directly on the tube to avoid costly and non recyclable labeled tubes

Decoration

Plastic TUBES Tubes offers numerous decoration options:

Dry Offset - Up to 8 different colors + external coating

Silk Screen - Up to 6 different colors

Selective Lacquer and special coating with haptic effects -3D sense

Hot Stamping on both tubes & caps

** The different options can be combined or stand alone **

Endless Printing Possibilities

Plastic TUBES Tubes has recently purchased a cutting edge Hybrid machine allowing different printing techniques Flexo + Hot Stamping + Silkscreen to achieve virtually every design on seamless plastic tubes.

This State Of The Art modular platform allows 10 decoration stations all in line that can be arranged in any desirable order.
